

## Brad's 2003 "Get Paid for Playing" Page

Who wants to get paid money for playing on your computer?! I'll assume...you. I'm a computer science student right now and wanted to try my skillz to make some dough on the web. Here's what I found: some online advertising companies that will pay anyone **by the hour** to view ads on your screen via a small "adbar" thingy. It's a bit smaller than a typical ad banner and anytime you are on your computer (work OR play) and have it on--You get paid. The software logs how much you use it and pays you accordingly--FYI--this is GOOD news for you web addicts. No limits. It senses mouse movement to make sure you're there too. You could be chatting w/ friends instant messaging, surfing the web, doing school work, using your computer normally--even playing games and dvd's. The one's I tested have **no popups** and will **never interrupt you** or spam you. The adbar will just quietly show small ads on the bottom of your screen in a 3/4 inch space. It's kinda like renting your screen space! There are actually many online advertising/consulting companies (about 50 now) who offer normal every day net surfers to be paid a percentage of their monstrous ad revenues simply for looking at their ads while they are on their computers. It started in early 1998 with AllAdvantage and Spedia in 1999 each paying around 50 cents per hour, and now, in the **\$.75/hour range and up \$2/hr**.

I know you're waiting for a catch, like I was, which is....um..you have to give up a 3/4 inch piece of space on the bottom of your screen. Of course, you can move, minimize, close, or uninstall the adbar software any time you want. Here is the best part: they're all **free** - no credit cards, no money is ever needed to participate and earn a real **US dollars check** in the mail. You don't even need a bank account! Check with your parents if you're under 13 though, please. You can start getting paid right from where you are sitting and clicking away and earn up to **\$2.15 per hour** just for using your computer as usual with a small adbar showing **which will look like this on your screen**. FYI: the average web user surfs 25hrs/month - that would be **over \$50 a month** you could earn **OR MORE** if you were participating..(hmm...I'm pretty damn sure that will pay for some broadband access..??) **So, why did I make this site?**...because you will also get paid a "bonus" for the time your referrals log with the adbar, so sign up your friends or the people you chat with and earn lots more. Below are the details on my two best picks....Have fun. Read the tips too!

**My #1 choice: Spedia** - Spedia is the best one overall because of its ease of use -- anybody with an internet connection and computer can participate for free and make some cash. And they're name. Spedia is the oldest "pay to surf" company and basically invented the concept which, in turn, helped fuel the dot com boom. Because of Spedia's success, they have kept a steadily increasing payrate for members. Currently, **\$.49 per hour** for surfing the web with their ad shower (the SpediaBar) on, and **\$.70 per hour** for "premier" members. Spedia requires you to have a browser open to stay "active" and get paid. This is to keep people from cheating, which has doomed other startups. These anti-cheating methods have kept Spedia at the top and payrates high for members! However, if you are online alot, but use mostly applications and **not** browsers (like Internet Explorer or Netscape..), I would recommend CashFiesta (#2 choice) because they don't require any browser to get paid. Anyways, there is no limit on how much you can earn. No time limits on using the SpediaBar. To become a premier member is still free, but they make you jump through some hoops and reward you with a 20% to 50% higher hourly payrate. These hoops are easy for savvy users, like surfing a certain number of hours each month.... and so on. If you don't want to hassle with that, you still get \$.49 per hour which is still good for playing on your computer! Spedia also pays you to play games on their site like poker and snowboarding and for reading emails (optional.) You get Instant Cash by registering for any of their free affiliates. Some cost money, but none are required. I've never paid a dime, and still make a decent amount..Spedia's mlm referral structure is 5 levels deep and you get a 25% bonus on all your direct referrals earnings and 5% on the next 4 levels - so get some friends to sign up and their friends and you will earn alot more - on top of what you earn! I'm not going to talk much about the mlm aspect, because you already know how that works, and what to do to increase your bonuses. When you earn \$30 or more in your account, they will send you a check in the mail in \$US Dollars. (yes, even to **worldwide members!**) Less than \$30 in your account at the end of the month, and it will just roll over to the next month. Use the SpediaBar when you're online, and you should have no problem making \$30 - \$40 a month with Spedia. I have been a free member using the SpediaBar for about 2 years now, and I get a check each month for the time I use it. Usually, my checks are \$140 - \$250 depending how much I surfed that month.

**Cool** ...[join free here](#) **Use my number: 798284**

This is

what the SpediaBar will look like on the bottom of your screen while you're getting paid to surf!

**Skeptical?** [Click here](#) to see a \$95 check Spedia sent me one month.

**My #2 choice: CashFiesta** CashFiesta started in early 2000 and has been paying thousands of members every month since. What I like best about Cash Fiesta is they **do not require you to have a browser open to get paid**. And it's totally free to join and use. So you can be doing anything on your computer like using applications, playing games, dvds, chatting, instant messaging, surfing - anything - as long as you are online and have the FiestaBar open and showing ads (the FiestaBar is similar is size/function to the SpediaBar). You can also dock the FiestaBar anywhere on your screen and it shows your points and referral stats in *real time*! The payrate is great too! Though you can earn more money than Spedia, you have to work a little for your payrate, and that's why I listed CashFiesta second best. Currently, they are paying up to **\$1.66 per hour, yes \$1.66/hour**, to surf with the FiestaBar on your screen. There is *no limit* on the time you can use it or the money you can earn! CashFiesta works on a points system which convert to cash at the end of the month depending on how many free affiliate "special offers" you register to. Your payrate depends on how many free "Special Offers" you sign up with per month. This seems like a major pain in the ass, but if you want a crazy-high payrate--CashFiesta is it. You can access Special Offers by logging in at the CashFiesta home page. Sign up for one per month and you get \$.20/hour, 2 you get \$.40/hour...and so on. To get \$1/hour you have to sign up for 6 per month, which only takes about 15 minutes each month to do this. If you use your points at the Cashfiesta Store, they will be worth alot more cash and you can get prizes and rewards. Cash Fiesta has a great referral structure that goes 8 levels deep! This is better than any other company I know of. It breaks down like this: You get 15% of everything your direct referrals earn (the ppl you sign up directly) as a bonus-it does not come out of their earnings, and 7% of your second level referrals earnings (the ppl your direct referrals sign up), and 5% of your 3rd level referrals earnings, 5% on the fourth, 5% on the fifth, 3% on the sixth, 3% on the seventh, and 1% on your eighth level referrals earnings. So refer your friends and you can make quite a bit more money. In fact, you can easily double or triple your check size each month just by referring people! Cash Fiesta is available to **Worldwide members** and they send checks out in \$USD each month if your account balance is \$50 or more (you can check your cash balance from your account page anytime). If your balance is less than 50 at the end of the month, it will just roll over and be added to the next month's balance. My typical monthly Cash Fiesta check has been in the \$400 - \$475 range, lately.

**Cool** ... [join free here](#)

**Ahh...still a bit skeptical?** [Click here](#) to see a \$156 check I got from Cash Fiesta.

If you want to increase your earnings, I recommend you sign up for both **CashFiesta and Spedia**, then use their adbars at the same time - then you can make **\$2.15 per hour!** Works great while Instant Messaging....OR just sitting on your ass and making \$2.15 per hour!! LOL....

## How Can You Increase Your Earnings?

By being a member of one or two and participating and surfing yourself with the adbars, you can make around \$25 or maybe \$100 a month if you surf/use the computer a lot. This is cool, ya, but if you want to make more than that and put just a **little bit** of effort into it, here is the secret: **referrals**. You don't need to tell people you know or even have a website--I'll show you how to do this. Read the rest of this site all the way through, and then again to get a good idea here. Ok, a *referral* is any person you get to sign up for one of these companies for free. These can be people you know or people you don't. The internet

makes this possible. For example: If you sign up from this webpage, you will be one of my referrals. I get many referrals from this website--even when I'm sleeping--it does all the work. Instant messaging is another great way. I combine this and other methods as you will read through out the page. I'll assume you don't know anything about mlm or referrals.... remember, you get **paid a bonus** when your referrals participate (surf or are online with adbar) This is how to make a lot of money (even \$500+ a month like me) with these programs in your spare time - and I'm doing about 6 hours of school related studying every day! Here's a realistic, hypothetical example: You get 10 referrals and they each surf the web 25 hours/month. You get a bonus of about 25% of what they make, which let's say is \$.50/hr. That's \$31.25 bonus for you that month--and that is ON TOP of what you, yourself earn for surfing. You can see how my \$500+ part time income from this is not so difficult afterall. To make over \$100 a month, you will **probably** need between 20 and 50 referrals. Sound hard? Consider this: 99% of the people I sign up, I've never even meet. And out of the hundreds of referrals I have, I have actually talked to probly **less than 10%** of them, so don't worry. There are a lot of ways to do this, it's easier than it sounds when I show you my techniques. I've been doing this for about 5 years part time now, and learned the best methods. In one month in 2002, I got 252 new referrals! And it cost me zilch with the internet. I'll show you how to do the same thing, without spending a dime and not wasting hours either. Ok, here we go, grab a hot drink, it's December afterall, and get comfortable--easy money tips comin' your way!!

### Method #1 For Getting Referrals: Using free click-exchanges

"Click-exchanges" or "traffic-exchanges" are becoming very popular, very quickly and work a hundred times better than the inefficient *banner-exchanges* of old. In fact, this is where I got most of my referrals. This will promote your your affiliate signup page (your link for CashFiesta or Spedia for people to sign up if you don't have a website) or your personal website(like mine) for you for free and get thousands of people to view your page for at least 30 seconds - How? It's an ingenious idea, really. First you become a member for free, and then you can add you URL or (web page links) of the sites you want to promote. CashFiesta and Spedia will give you your own unique web page referral link to promote, so you don't even need a website. I do recommend making a free personal website like mine though.

Anyways, now you login and surf a plethora of member web pages and after 30 seconds or so, this is average, you get some kind of button that appears and you click it to go to the next page. For each page you view, you recieve 1 credit. For each credit you earn, YOUR site will then be shown to someone else for 30 seconds! It would **seem** that most people that are members are just trying to promote *their* page and wont pay attention. I was skeptical even, but if you have a free offer to make money, most can't resist. And it's tried-and-true: I have made over 800 referrals just with click-exch.'s alone. Use one or more of these exchanges for 20 minutes each day or in your spare time (with your adbars running, of course!) you'll get 100's of unique viewers to your site/link per day. This will also keep your Spedia bar active, because Spedia requires you to move pages every so often. There are many new traffic-exchanges coming out now, and they're almost all free. Just use the free ones. Below are my favorites...

#### Best Free click-exchanges:

GlobalTrafficTrader is a good quality and well designed free traffic exchange with 2:1 ratio and more

1 Heluva.com is a good traffic exchange  
and very popular free traffic exchange 2:1  
ratio - make money!

I recommend you join the ones you want from above (or all), then open up to 6 or even 8 new browser windows in Internet explorer or netscape at once (ctrl + n), and log in to a different click exchange in each window. Then surf them all at once. You'll see what I mean once you use them a bit. This will save you time and allow you to earn more traffic per hour then just using one window. Ok, keep going, there's more...

### Method #2: How to use Instant Message Programs to get referrals.....

I know you are on these devils all day and all night...and so am i. hehe. I have had some luck using instant messaging programs like AOL Instant Messenger, ICQ, Yahoo Instant Messenger and MSN Messenger. To use this method to get referrals, you first need the program. [ICQ](#) is free to download and a great program to chat with people all over the world.

A method in ICQ is to log on and click on the "Add/Invite Users" button and from there, click on "Find Friends/Similar Interests." Now search using keywords or other info (like interests or age) and click on "add" or right click on the person and click on "add to contact list." Then it will ask you what group you want to add them too, add these all to one group. After you have added 30 or 100 contacts to a certain group. Click on that group and then click "send message to group." Now type in a short message with your referral link and tell them about it or whatever you want or a link to your website (if you have one) and send the message to your contacts. Do Not Spam though!

Conversation starters for IM for people you have never met:

"do you surf the web alot?...."

"do you get paid to play on your computer?...."

"interested in free money?...."

These three will always catch people's attention, even if they weren't really looking to make money right then. Usually, this will get them to start asking YOU the questions. It's all downhill from there. Be creative. But respect people that you don't know that well and give them some room. If they don't ask you a question about what you are talking about, just change the subject, and chat with other contacts.

This works much better than bulk emailing (which is bad and I strongly do not recommend) because on Icq, you can chat with people about it in real time and answer their questions if they have any before they join. This way people will be much more responsive and friendly, and as long as you establish friendly 2-way conversation, it's not spamming at all. I sometimes spend hours just instant messaging people with Icq that I didn't even know and end up talking to them about the programs and other bs for hours. Of course, I have my adbars (SpediaBar and FiestaBar) running too, so **I'm getting paid \$2.15/hr while I do it!** Make it fun and not all business and you will be more interesting to people and get many more referrals. Instant Messaging is better than going to chat rooms or news groups (which are totally useless) One thing to remember when first talking with strangers is that some people are mean or just in a crappy mood sometimes. If they don't seem excited, like you first were when reading this site, delete them and chat with someone else. Icq has like 300 million members! Please send me a quick note at the email adress below if you want to chat about the programs, referrals, or just bs:

[317657521@pager.icq.com](mailto:317657521@pager.icq.com)

Always up, Always online, Sustained by caffiene

So now you know have the tools and knowledge to make some money with "pay to surf" programs. You have a choice, fellow surfer. You can surf 15 minutes or a halfhour each day - and get some extra spending cash for a Britney Spears cd.. Or you can put a little effort into it, get some referrals or a free website (time flies when your gettin' paid) and earn \$100+ a month. So what will it be? If you decide, after you have joined a couple of the programs, that you want to get alot of referrals, and take some extra time that is needed to get many referrals, please **ICQ me**. I can then help you one on one and we will both make money from it - the more money you guys make, the more I make too! I can do the same for you.

**If you have or want to make a personal website read this:**

If you already have a personal website or will be promoting your programs with one, the next step is to **attract visitors**. This is a biggie. If no one visits your webpage, you won't have a chance to tell them about these programs! We have already discussed traffic-exchanges above. Here I'll talk breifly about search engine submitting / listing.

If you want to make a personal website, use an html program like Dreamweaver MX or Frontpage Express which comes with Microsoft Office. Then you need a host that will "store" your webpage and serve it to visitors. I recommend a free host (nothin' fancy) and my current host, FCpages.com, has treated me very well--I have used them for 2 years totally free, free hosts usually use banners to make revenue. Now design it. Again, nothing too fancy to begin with it should only take you about an hour or two to whip it out. Then start submitting to search engines via SelfPromotion.

[SelfPromotion](#) is a free site that has all the answers and tricks for you to get your website out there on the internet without spending a penny. Using they're simple techniques, you should be able to generate hundreds or even thousands of hits per day to your new web site from search engine traffic. Statistics show, nearly 80% of all Internet traffic is generated from search engines. I don't have room to talk about this huge topic here, so just visit [SelfPromotion.com](#) and see what it's all about.

---

Okay, lets review how YOU can GET PAID TO SURF:

You signup free to [CashFiesta](#) or [Spedia](#), you surf and use your computer normally, the 1" ads are shown, and you are paid with a check in the mail each month - that simple. You won't get rich, but the more you surf - more you get, no limit of hours you can use it. These programs also have an "mlm" feature giving you the ability to make hundreds or even more per month by referring your friends to join and get paid to surf. You earn a bonus based on the number of hours your friends surf each month. For [CashFiesta](#), your bonus is 15% of everything your direct referrals earn and so on down to EIGHT levels! [Spedia's](#) referral structure is simular. It starts at a 25% bonus for everything your direct referrals earn and 5% down 4 more levels. You can log in at their website or right from the adbar and see how much you've made anytime ya want. Both CashFiesta and Spedia require a \$30 balance in your account before they can send a check. It should be easy to earn that each month for normal surfers. If you have less than \$30 balance at the end of the month, it will simply roll over and be added to the next month's earnings.

I have put this site up to show YOU these free "paid to surf" programs, how they work, and how to get the most out of them, hopefully, answering all your questions (I know you have some.) The bottom line here is, if you made it here to my webpage, you already have all the skills it takes to do this - it really is a no-brainer. No money is ever needed, period. No credit card is ever needed, period. However, there is an age requirement of 13 to join. Well, now that we got all that cleared up, have FUN while you visit and bookmark me if you like! :)

Feel free to email me with questions [here](#) Help is on the way!
