On to the Ebook...

First off, Congradulations and Thank You for purchasing my eBook.

**STEPS TO RECEIVE \$5 OF ANY VIDEO GAME
ANYTIME:**

Step #1: Go to your local Best Buy store and pick up a **GAMERS Gift Card that looks just like the one below. This is a *special* gift card that will allow you to get \$5 off your games! As you can see in the picture, in the lower left corner, there is a coupon for \$5 off any video game!**

Step #2: Take this gift card to the cashier and only charge \$1 to it. (If the cashier questions you or gives you a weird look, just tell him/her it's a gag gift.)

Step #3: Go back into the store and pick up the game of your choosing. (Remember: The game must be at least \$19.99)

Note: This only works one gift card per game. So if you want 5 games, you need 5 gift cards. Also, you probably shouldn't do all 5 at once, they may not honor multiple gift card coupons. However, I have not tried multiple cards at once, so go right ahead if you want to experiment.

Step #4: Return to the cashier with the game and gift card (with coupon) in hand. Hand the cashier the gift card, with a \$1 credit, and the coupon. After she rings up the price, with the \$5 off, just pay the difference and you have saved yourself \$5!

Here is an example of how it works:

Say you want a game that is \$19.99. Take the game and already purchased gift card to the cashier. With the coupon, the game comes out to be \$14.99. If you use your \$1 gift card, you only have to pay \$13.99 cash (and whatever tax you may or maynot owe).

It's that simple! Thank you again for reading my ebook! Be sure to check out more great ebooks at the following websites!
